## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 20-41 are allowed. The following is an examiner's statement of reasons for allowance: The prior art when taken alone or in conjunction with another does not adequately teach or fairly suggest a convertible vehicle comprising: a carbody; a foldaway top connected to the carbody so as to fold from a closed position into an open position and back; a top compartment adapted to receive the foldaway top when folded into the open position; a top compartment lid for closing the top compartment, wherein the top compartment lid extends within a rear carbody contour of the carbody; a hinge device connected to the carbody and to a rear end of the top compartment lid so that the top compartment lid is pivotable relative to the carbody; the hinge device comprising a support part and being pivotable relative to the support part; the foldaway top having a lateral top cloth side rail; the top compartment lid having a front end adapted to interact relative to the foldaway top with at least one locking device provided in the area of the lateral top cloth side rail, wherein the top compartment lid is lockable on the top cloth side rail by a push-pivot movement and is released by a movement carried out in reverse; at least one lifting drive acting on the top compartment lid and pivotably connected with a first end to the top compartment lid at a spacing from the hinge device and pivotably connected with a second end on the carbody; wherein a lifting force that is introduced by the at least one lifting drive into the top compartment lid is transferred directly into an actuation of hinge parts of the hinge device in the area of the hinge device pivotable relative to the support part. Of particular relevance is the mounting configuration of the at least one mounting drive. Furthermore, the

Art Unit: 3618

prior art in the same field of endeavor does not adequately teach a top cloth side rail and the claimed mounting means between said top cloth side rail and the top compartment lid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dettling et al (US Pat. No. 5,975,619), Schuler et al (US Pat. No. 5,967,593), Rothe et al (US Pat. No. 5,816,644), Russke (US Pat. No. 6,502,891 B2), Wagner et al (US Pat. No. 6,454,343 B1), Heselhaus et al US Pat. No. 6,454,342 B2), Hayashi et al (US Pat. No. 6,364,396 B1), Bonne et al (US Pat. No. 5,267,769), and Burst (US Pat. No. 5,197,778) disclose convertible folding tops, folding mechanisms, and associated storage compartments that may be of interest to Applicant.
